

# Yousef Ayman

Junior Front end Developer | React.js

## 📁 Employment History

### Front-End Developer Intern | React.js at Almdrasa

May 2024 — Present

- Developed and deployed **20+ production-ready projects**, focusing on scalable and maintainable codebases.
- Gained proficiency in building responsive web applications using **React.js**, **Tailwind CSS**, and **SCSS**.
- Designed and implemented **multi-language support** for applications, increasing accessibility to diverse audiences by **100%**.
- Optimized user interfaces for a **seamless experience across devices**, achieving a **20% improvement in loading times**.
- Engineered a secure payment system by seamlessly integrating Stripe, ensuring smooth transaction processing for over 100 users daily while providing instant success confirmation pages to enhance customer trust and satisfaction.
- Leveraged API integration to dynamically fetch and display data, improving real-time updates and interactivity.

## ★ Projects

### Marketio (E-Commerce Website)

- Live URL: [[Marketio](#)]
- Engineered an innovative e-commerce platform featuring product categories, a wishlist function, and real-time rating capabilities; enhanced user experience .
- Integrated **Stripe** for secure payments, handling transactions smoothly with a success confirmation page.
- Developed authentication functionality using **Firebase**, enabling users to sign up, log in, and log out securely.
- Added **multi-language support** (English, Arabic, Spanish) using i18n, enhancing user engagement.
- Delivered a fully responsive design with light/dark modes, ensuring optimal usability across devices.

### Around the World (Country Explorer App)

- Live URL: [[Around the world](#)]
- Created an app using the REST Countries API to display and filter data for **250+ countries**.
- Designed search and filter features to enable users to find countries by name or continent.
- Developed dynamic routing with **React Router DOM**, providing seamless navigation to country-specific details.

## Skills

HTML & CSS

Programming Languages:

JavaScript, TypeScript

Front-End Frameworks and

Libraries: React.js, Tailwind

CSS, SCSS

Version Control: Git, GitHub

## Languages

Arabic

English

## Education

### Front-End Diploma | React.js, Almdrasa

Completed a comprehensive diploma in front-end web development, mastering essential and advanced technologies, including:

- **Core Technologies:** HTML, CSS, JavaScript, and TypeScript.
- **Frameworks and Libraries:** React.js, Tailwind CSS, and SCSS.
- **Version Control:** Git and GitHub.

The program emphasized building real-world projects, focusing on responsive design, clean code practices, and modern front-end development workflows.

### Bachelor of Veterinary Medicine, Zagazig university

October 2019 — June 2025

- Completed a rigorous program in veterinary medicine, developing strong analytical, research, and problem-solving skills.
- Gained a solid foundation in critical thinking and scientific methodology, transferable to front-end development and software engineering.
