Yousef Ayman

Front-end Developer

yousefayman2000500@gmail.com — +20-155-630-4388 — Linkedin — Github — Portfolio

Summary

Junior **Front-End Developer** with professional experience delivering responsive, multi-language web applications using **React.js**, **Next.js**, and **Tailwind CSS**. Skilled in building production-ready UIs with strong focus on performance, accessibility, and SEO. Experienced in handling APIs efficiently using tools like **React Query** and **Axios**, as well as integrating payment gateways and third-party services. Familiar with modern front-end practices including **TypeScript** and component libraries like **Shadcn UI**. Adept at collaborating with teams to deliver scalable, maintainable solutions for e-commerce, healthcare, and corporate sectors while maintaining a client-focused mindset and writing clean, optimized code.

Experience

Self-Employed   Mar 2025 – Present

Freelance Front-End Developer   *Remote*

- Delivered custom **landing pages, e-commerce websites**, and UI for a health-tech AI platform.
- Developed scalable front-end solutions using **React.js**, **Next.js**, **Tailwind CSS**, **TypeScript**, **React Query**, **Axios**, **Firebase**, **Stripe**, and **Shadcn UI**.
- Integrated **multi-language support** and secure payment gateways, enhancing accessibility and user trust.
- Maintained strong client satisfaction with **100% 5-star reviews** and a **70%+ return client rate**.
- Collaborated with clients on **Khamsat** and **Freelancer.com**, driving measurable business growth.

Almdrasa   May 2024 – Mar 2025

Front-End Developer Intern — React.js   *Remote*

- Built and deployed **20+ production-ready projects** using React.js, Tailwind CSS, and SCSS.
- Integrated **multi-language support**, improving accessibility and user reach.
- Enhanced UI responsiveness and performance, reducing load times by **20%**.
- Integrated **Stripe payments**, handling secure transactions for over **100 daily users**.
- Implemented **real-time data fetching via APIs**, boosting user interactivity.

Projects

Marketio (E-Commerce Website) | *React.js, Firebase, Stripe, Tailwind CSS, i18n*

- Built an e-commerce platform with features like **wishlist**, **product filtering**, and real-time ratings.
- Integrated **Stripe** for secure checkout and implemented **success confirmation** pages.
- Developed user **authentication system** using Firebase.
- Added **multi-language support** (English, Arabic, Spanish) to reach broader audiences.
- Delivered a fully responsive UI with light/dark themes for enhanced user experience.

Links: Live Demo | GitHub

FutureConnect (Client Project – eSIM Platform) | *React.js, Tailwind CSS, Vite, i18n, React Router*

- Built a fully responsive and animated UI for an eSIM marketplace supporting **global, regional, and local data plans**.
- Integrated **multi-language support** (English/Arabic) with full **RTL layout** support.
- Implemented client-side routing for dynamic pages including plan overviews, detailed country plans, and FAQs.
- Designed intuitive plan browsing and detailed cards using Tailwind CSS and advanced hover animations.
